

*No motorcycle has changed the concept of touring like the Honda Gold Wing. A horizontally opposed engine offering power, performance, and perfect smoothness. Shaft final drive. A chassis designed for day-long comfort. And over the last four decades, the Gold Wing has only got better and better, and touring riders have had it better and better too — full-coverage bodywork, bigger engines, more cylinders, better chassis, more power and integrated luggage.*

*2015 is a special year for the Honda Gold Wing, and we're celebrating with a special 40<sup>th</sup> Anniversary badge, located on the front face cowl, rear trunk lid, above the glove box, passenger seat emboss, and key.*
