CLASSIC STYLE MODERN PERFORMANCE

The Honda CBR650F is a bike that will appeal to your practical and emotional sides. A truly fun ride at a great price, it's what Honda does like no one else. Built around a smooth, inline-four engine specifically tuned for low-to-midrange torque, the CBR650F has a powerband that's suited for a wide range of riding styles. Weekday commuting, weekend sport riding, long trips, short hauls, solo or with a passenger—the CBR650F does it all.

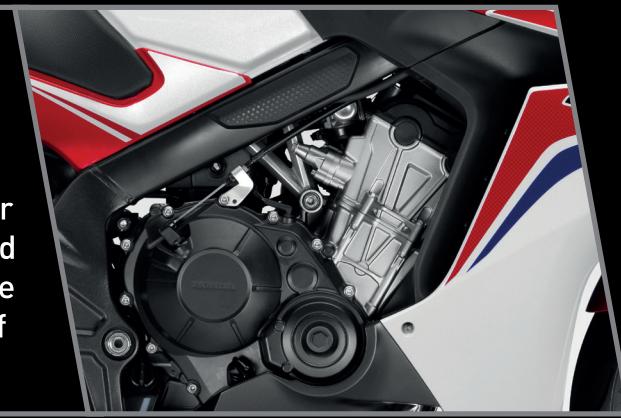

TWIN-SPAR STEEL FRAME

Rock-solid handling starts with a rock-solid chassis. The new CBR650F's frame is strong, for sharp, responsive handling, but not too stiff for casual, everyday riding.

INLINE-FOUR CYLINDER ENGINE

Honda pioneered the modern inline-four layout and we've never looked back. Smooth running and offering terrific performance, the CBR650F's powerplant is one of our best.
